

DX Fanzine No. 95 – July 2021

DX Fanzine, an electronic newsletter which was originally edited in 1999/2000, brings together tips and news as contributed by individual DXers or ascertained from different sources. We are interested in any change in frequencies, times, language-services, transmitters, programme contents, phone and fax-numbers, electronic and postal address, station personnel. The purpose of DX Fanzine, which doesn't pretend to be in competition with any other electronic DX newsletter, is to provide timely and topical news and information to shortwave enthusiasts worldwide. It is available on the web at www.dxfanzine.com and updated as soon as loggings, DX news, frequency updates, as well as, QSL notes are received from any SWL around the world. Although the primary platform for delivery of DX FANZINE information remains its web site, it is turned into a pdf file, (where you can see the final version of it with loggings and information, just as they appear online), a couple of days after the end of each month and sent out FREE to anyone who has subscribed. The current as well as the previous editions of DX Fanzine (including those of years 1999/2000!) can be accessed from its home page and are there almost indefinitely.

NB: All times, days and dates are day/month GMT-UTC, unless otherwise stated. Logs are entered in frequency order. Reception quality abbreviations: P = Poor, F = Fair, G = Good, E = Excellent. Language abbreviations: AA=Arabic, CC=Chinese, CT=Catalan, DD=Dutch, EE=English, FF=French, GG=German, HA=Hausa, IT=Italian, JJ=Japanese, KK=Korean, PP=Portuguese, RM=Romanian, RR=Russian, SS=Spanish, VV=Vernacular.

Material from DX Fanzine may be redistributed, posted to any other location, published or used for broadcast, provided it be fully credited to DX Fanzine and the original and intermediate sources.

Please send your contributions to: dxf@dxfanzine.com **EDITOR:** Antonello Napolitano (AN).

A NEW KIWI SDR, LOCATED IN TARANTO (SOUTH OF ITALY) IS ONLINE!

If you would like to test how medium but also short wave reception is in the South of Italy live, you can now conveniently do this over the Internet with a new KIWI SDR, located in Lama, a suburb of Taranto, the home of DX Fanzine.

Just click on this <http://62.170.60.210:8073> and you can browse the whole band from 10kHz to 30MHz. The linked KIWI-SDR with a 50 metre vertical spiral antenna (from 1800 to 0400 UTC) and an active Loop antenna (from 0400 to 1800 UTC) can handle up to 8 users at the same time. It should be mentioned that this is the southernmost Kiwi SDR receiver in Italy (It's ideal to hear the infamous Greek pirate stations in the range between 1.6 and 1,7 MHz which in this area of Europe are literally booming in!).

Until now shortwave radio enthusiasts not only from Italy but also from France, The Netherlands, USA, Germany, Greece, Qatar, Russia, Bulgaria, Chile, UK, Czech Republic, Indonesia, Sweden, Ukraine and Serbia have accessed the service. It gives us a lot of pleasure seeing so many people using the SDR's, so long may it continue.

Supported by DX Fanzine, this new KIWI SDR is operated and maintained by IZ7HZV, (Italian Radio Amateur Emanuele La Diana). You can also use the web site of IZ7HZV to access our Kiwi SDR: <https://iz7hzv.wixsite.com/iz7hzv>
The site as well as the Kiwi access page includes a "Donate" button.

Please donate if you possibly can, so that we can make our SDR site better than now. It is as easy as using your PayPal account and sending PayPal donations to the e-mail address appearing on the screen. A big thank you to everyone who has already donated to keep the IZ7HZV Kiwi's in service, it is really appreciated.
